

Урок математики

2 класс

- Решать примеры, задачи;
- Сравнивать числовые выражения;
- Смекать.

Вставить пропущенные числа:

$$\square + 10 = 70$$

$$40 + \square = 50$$

$$50 + \square = 60$$

$$\square + 10 = 40$$

$$90 + \square = 100$$

$$30 + \square = 40$$

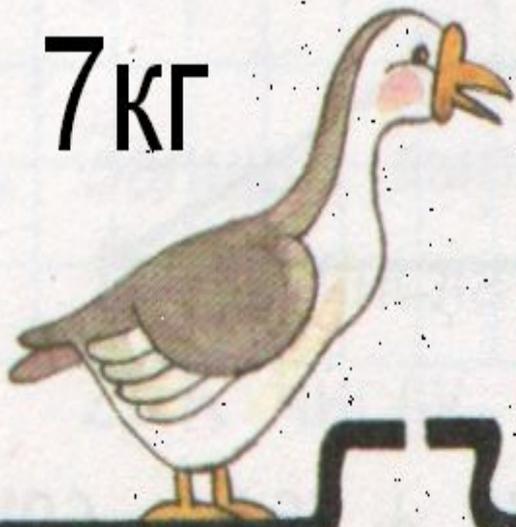

Найди «лишнее» число в каждом ряду

• 10 20 30 40 55 60

• 1 2 31 4 5 6 7

• 24 11 13 15 17 19 12
