

1 класс

Математика

Учитель: Бородинова Ольга
Анатольевна

Способы вычисления

- Числовой отрезок
- Состав числа

?

$$3 + 3 = 6$$

$$3 + 4 = 7$$

$$3 + 5 = 8$$

The image displays four addition equations arranged vertically. Each equation consists of a black number, a plus sign, a blue number, an equals sign, and another black number. A curved arrow points from the blue number to the first black number, and another curved arrow points from the blue number to the final black number.

$$\begin{array}{l} 3 + 2 = 5 \\ 3 + 3 = 6 \\ 3 + 4 = 7 \\ 3 + 5 = 8 \end{array}$$

Способы вычисления

- Числовой луч

- Состав числа

- Закономерность ($3+2=5$ $3+3=6$)

$$3 + 6 = ?$$

1)

2)

Тема урока: «Число 9. Цифра 9»

9

9	
7	2
6	3
5	4
4	5
3	6
2	7
1	8

$$2 + 7 = 9$$

$$9 - 4 = 5$$

$$6 + 3 = 9$$

$$9 - 1 = 8$$
