

Дети под руководством взрослого составляют по картинкам задачи. При клике мышки идёт проверка: появляется решение задачи (пример), при новом клике – ответ. Слайды можно копировать и вставлять в свои презентации. Все картинки в презентации нарисованы в программе Xara Xtreme Pro 5. Задачи можно распечатать, тогда получатся замечательные карточки.

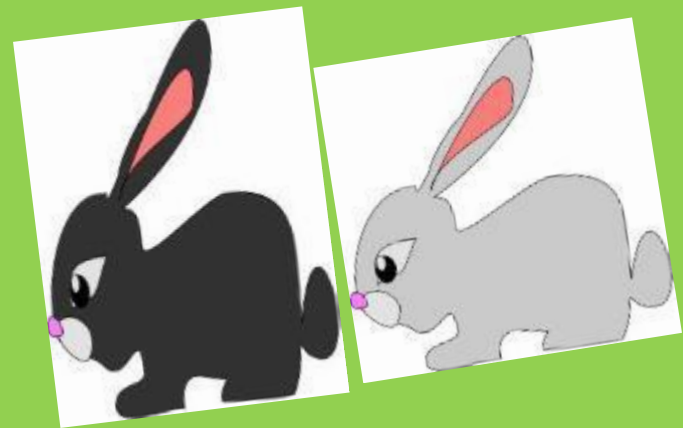

Удачи!

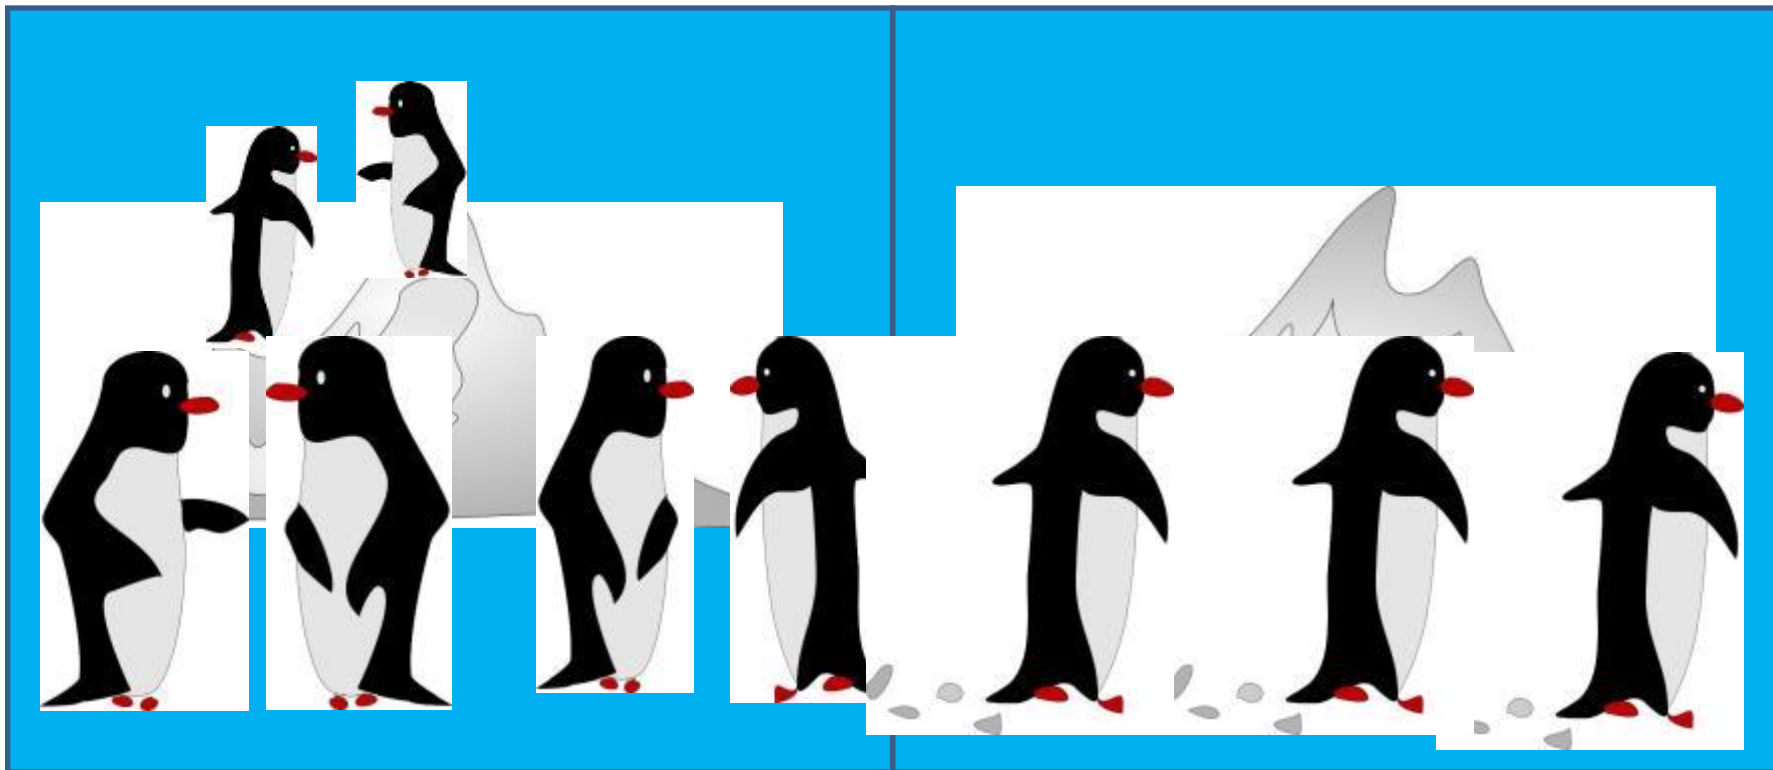

$$2 + 2 = 4$$

$$6 + 2 = 8$$

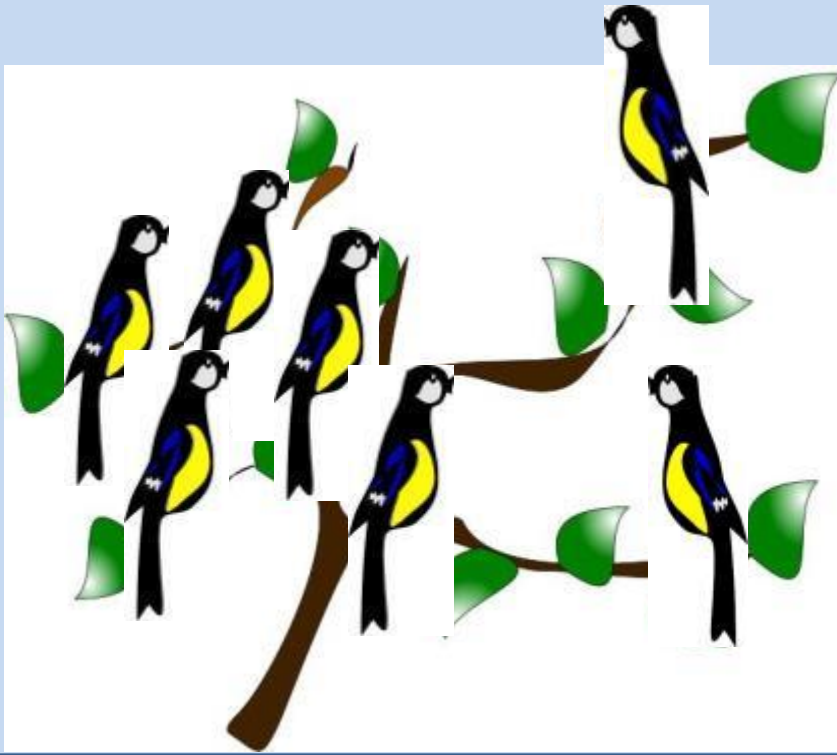

$$4 + 2 = 6$$
