Тема: Январь – середина зимы.

Работа выполнена учителем

❖ Мы с бараньими рогами.

6 Вниз под горку мчимся сами.

А как на гору взбираться –
Начинаем упираться.

❖ Обе по снегу бегут,
2 Обе песенки поют,
Обе ленты на снегу
Оставляют на бегу.

❖ Дождались зимы друзья;

8 По реке бегут, скользя.

Лёд срезают, как ножи,

Выполняя виражи.

1. The first of these is the *Book of the City of Dreadful Night*, which was published in 1817. It is a long poem in four parts, written in a dark and mysterious style. The poem is set in a remote and desolate part of Scotland, and it tells the story of two men, Roderick and Henry, who are wandering through a dark and dangerous landscape. The poem is a masterpiece of the Romantic movement, and it is one of the most important works of Scottish literature.

❖ Декабрь - месяц первых белых троп.

❖ В декабре зима стелет белые холсты, а мороз через реки наводит мосты.

❖ В декабре мороз нарастает, зато день прибывает.

❖ В декабре семь погод на дворе: веет, дует, кружит, рвет и метет.

❖ В конце декабря солнце на лето, зима на мороз начинается.

❖ Год декабрем кончается, зима начинается.

❖ Декабрь - месяц больших волчьих стай.
