Морфо ахилл

A detailed illustration of a monarch butterfly with orange and black wings, surrounded by various other butterflies and small plants. The monarch butterfly is the central focus, with its wings spread wide, showing characteristic orange bands and black veins. It is surrounded by several other butterflies of different species and colors, including yellow, blue, and green. Small plants with red berries and yellow flowers are scattered around the butterflies, adding to the naturalistic theme. The entire scene is set against a white background with a thin gold border.

Павлиноглазка комета

The image features a central illustration of a large moth, likely a Saturniid, with wings that are primarily dark brown or black. The wings are adorned with prominent white and red markings, including large white eye-like spots and red borders. The moth is positioned in the center, with its wings spread. Surrounding this central figure are several smaller illustrations of various butterflies and flowers, creating a decorative border. The butterflies include a yellow one with black spots, a blue one with white spots, a green one, and a red one. The flowers are small and colorful, including red and yellow ones. The entire composition is set against a white background with a thin gold border.
