# Rowing

rowing - first appeared in Britain , and  
now this sport is known around the  
world

- England - the birthplace of rowing. It was here that rowing took shape as a special pastime with carefully observed traditions and millions of loyal fans. Here, the rules of the competition were developed, the first official races took place, the designs of rowing vessels were developed. The system of amateur competitions has developed and is preserved in a magnificent form.

# Rowing Kazan

In Kazan the rowing develops recently ,approximately since the 1950's . But is at a good level in Russia and around the world . The impetus was the Kazan 2013 summer Universiade , this year built a center of rowing sports , now on this basis of training the majority of rowers Russia. On this basis, there are all conditions for achievement of high results , the center of rowing sports belongs to the Volga region Academy of sport and tourism

- This base is already a participant of the Olympic games - Artem Kosov

- in rowing he went late enough , I used to play basketball . very quickly made it to the team of Russia and became one of the strongest rowers in Russia . doing more than 10 years , he still went to the Olympics in 2016 in Rio . everyone who was supposed to play for Russia at the games in 2016 , were excluded because of problems with doping , but Artem and 3 rowers were lucky , but because the crew they trained enough , took only the 10th place

- He continues to work and is not going to give up your favorite sport , though, and the whole world can now do with politics , and problems of Russian doping is not over . Wants and is going to go to the Olympics and get there prizes . He has many medals and titles , but all athletes is the most important, is an Olympic medal , I'm sure that Artem will soon or later will get it

*Thank you for your  
attention!*
