# Полезные советы

- Убежище должно быть заметным! (яркая одежда, предметы, расчистка местности...)
- Убежище должно быть сухим! (подстилка, полиэтилен, камыш, ненужные вещи...)
- Убежище должно быть теплым! (малые размеры, двойные стенки, отсутствие щелей)

A photograph of an igloo in a snowy, mountainous landscape. The igloo is constructed from ice blocks and has a small, dark entrance. The surrounding terrain is covered in snow, with a large, rounded mountain peak in the background under a bright, overcast sky. The overall scene is desolate and cold.
