Almost one-third of the population lives in England's prosperous and fertile southeast and is predominantly urban and suburban--with about 8.615 million in the capital of London, which remains the largest city in Europe. The United Kingdom's high literacy rate (99%) is attributable to universal public education introduced for the primary level in 1870 and secondary level in 1900. Education is mandatory from ages 5 through 18. The Church of England and the Church of Scotland are the official churches in their respective parts of the country, but most religions found in the world are represented in the United Kingdom.
