3. Click on the Programs from the left side menu.

1-888-886-0477

4. Select the Check if Opera is default browser on startup check box and click *OK*.

The screenshot shows the 'Advanced' tab of the Opera browser's settings. The 'Programs' section is selected in the left sidebar. A red arrow points to the checkbox labeled 'Check if Opera is default browser on startup', which is checked. The 'mailto' protocol is listed with 'Opera' as the default program. The 'Available file handlers' section is also visible, showing 'Opera' as the default application for viewing source.

Protocol	Program or webpage
mailto	Opera

Available file handlers

☒ Check if Opera is default browser on startup

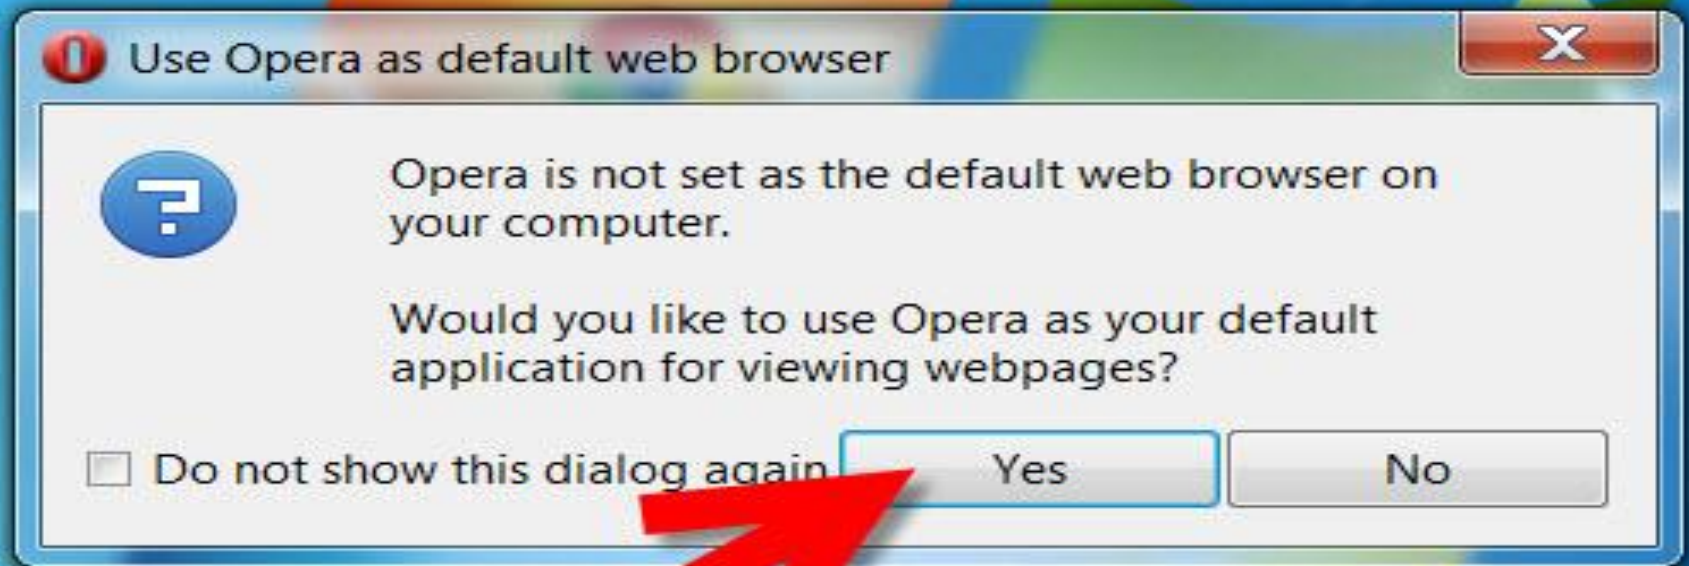

Choose application for viewing source

Opera

Buttons: Add..., Edit..., Delete, Details..., Details..., Edit...

Bottom bar: 1-888-886-0477, OK, Cancel, Help

5. Restart your Opera browser and you will get *Use Opera as default web browser window*. Click **Yes to set Opera as your default web browser.**
